The five-factor model of personality is based on

the fundamental principles and goals of Cattell's 16 Personality Factor Model. Cattell's approach to understanding the factors of personality was lexical. He acquired previous compilations of the most common adjectives describing personality and subdivided and excluded terms, ending up with 35 clusters of descriptors. A factor analysis of the 35 ...

Personality predicted leadership emergence across a variety of people and settings. Lord (1986) states, “In short, personality traits are associated with leadership emergence to a higher degree and more consistently than popular literature indicates” (p. 407). In addition, Barrick and Mount (1993) have found a significant association between personality and job performance. The combination ...

personality may not be quite so hopelessly complex as it is some- times thought to be (Thurstone, 1934, pp. 12-14 [italics added]). The Big Five One of the most influential scientists to apply empirical pro- cedures to the task of constructing a personality taxonomy was Raymond B. Cattell, who began with a perusal of English per- sonality-descriptive terms. Allport and Odbert (1936) had cata ...
